The right information from the right people at the right time.

June 6-7th 2009: Final Assessment Mock Exam Course

Held over two days at the City University's Fight for Sight Optometry Clinic in London, this weekend Mock Exam Course is held towards the end of the pre-registration year in time to prepare for the summer Final Assessment.

Our mock exam day will put all delegates through each of the practical exams that make up the Final Assessment: each exam is held in real time and by current College Examiners - it doesn't get any closer to the real thing than this!

Saturday Mock Exams:

Ocular Disease Station Exam, Ocular Disease Oral Exam, the Routine Exam, the Contact Lens Exam.

Note: CLEARVIEW Training reserves the right to alter the course content in line with the changes to the Scheme for Registration.

Sunday Tutorials:

The Sunday will consist of rotations through a number of tutorial or practical sessions in small groups, covering the CDM Exam, Slit Lamp for the Aftercare Exam and a BV assessment in preparation for the ODA Exam.

In the Clinical Decision Making (CDM) tutorials, delegates will have the opportunity to go through prepared clinical case records followed by a group Q & A session.

Places fill up early and is limited to 36
Early booking is advised to avoid disappointment
